FEATURED PORTFOLIO & PROJECTS

1. Efficient Data Entry for Inventory System

Managed the accurate and timely input of over 5,000 product records into a new inventory management system using Microsoft Excel, Google Sheets, or a specific database program. Ensured data integrity through regular audits and error correction, resulting in a 15% reduction in stock discrepancies.

2. Global Gig Worker | Remote Freelancer

I am a global gig worker offering reliable, high-quality services to clients worldwide through digital platforms. I work remotely with strong professionalism, adaptability, and attention to detail, delivering results in flexible, project-based environments. I value clear communication, time management, and continuous skill development, and I am open to remote, contract, and long-term collaboration opportunities.
