CHRISTIAN NWAIGBO

ENTRY-LEVEL AI DATA ANNOTATOR | AI TRAINING ASSISTANT | DATA LABELING

Email: Gmailpeacedigital123@gmail.com | Phone: 07037494230
Location: Nigeria | Institution: University of Benin (UNIBEN)

PROFESSIONAL SUMMARY

Motivated first-year university student at the University of Benin seeking entry-level opportunities in artificial intelligence, AI data annotation, data labeling, and AI evaluation. Interested in helping improve AI systems through accurate data review, text classification, information research, and content evaluation. Eager to learn new tools, follow detailed project guidelines, and deliver reliable, high-quality work while balancing academic responsibilities.

EDUCATION

University of Benin (UNIBEN)
Undergraduate Student — First Year | Expected Graduation: 2030

CORE SKILLS

- Attention to detail and reading comprehension
- Online research and information gathering
- Written communication and data categorization
- Following instructions and quality guidelines
- Time management and organization
- Basic digital literacy and willingness to learn AI tools

AREAS OF INTEREST

- AI data annotation and labeling
- AI response evaluation and search engine evaluation
- Text classification and AI-generated content quality review
- Data quality assurance
- Artificial intelligence and machine learning

RELEVANT DEVELOPMENT

Currently building knowledge of digital tools and exploring opportunities to develop practical skills in AI data work, information evaluation, and technology-assisted research.

LANGUAGES

English

AVAILABILITY

Interested in suitable remote, part-time, and project-based opportunities compatible with university studies.

CAREER OBJECTIVE

To gain practical experience in the AI industry, contribute to projects that improve the quality of AI systems, and develop valuable technical and analytical skills while pursuing university education.
